Yes No

Do you maintain a controlled Quality Procedure Manual?
If Yes, please send a copy to JGB as soon as possible.
If the company is ISO 9001 or AS9100 registered you may omit completing the following questions if you submit your certificate.

Do you have a written procedure that describes administration of the Quality System?

Do you have a written procedure that details proper completion of test and inspection records?

Do you have a written procedure that specifies how long records are held?

Do you have a written procedure that details test/inspection processes used to verify product conformance?

Are receiving inspections performed on all incoming parts?

Do you have a written procedure that specifies criteria for approval and rejection of material?

Do you have a written corrective action policy?

Are the latest revision drawings used to inspect and test?

Do you have a written procedure to address regular calibration of test/inspection equipment?

Do you have a positive system for identifying the inspection status of material?

Do you have a written procedure to address the control of non-conforming material?

Is statistical process control currently a part of your quality system in regular use?

Do you have a written procedure for sampling inspection?

Do you have a written procedure that addresses handling, storage, age control, and delivery of materials?
